

DJI M400 Air Module

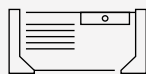

For extended flight time with Safe-T 2

Rapidly connect your DJI M400 with our Safe-T 2 tether station and benefit from hours of static flight at up to 100 m to better protect people, sensitive sites or assets in all types of environments.

Safe-T 2 Tethered Station

The Safe-T 2 is an advanced tethered station for UAVs, supplying unlimited power for hours of overwatch at 100 m above ground level.

Unlimited Power

Our DVO «Dynamic Voltage Optimization» technology ensures continuous flawless power delivery through the tether up to 2200W.

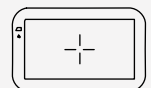

Plug and Fly

Our Air Module seamlessly integrates with the DJI M400 to enable fast deployment and smooth switching from tethered to untethered operation.

T-Manager Software

T-Manager software allows remote control of the Safe-T, as well as key indicators monitoring such as the tether length or power consumption.

Quick setup, Unlimited Power

MICRO-TETHER

A 110 m micro-tether and smart winch control enhance drone stability and minimize tether impact.

DJI M400 AIR MODULE

Dedicated Air Module designed to operate with the DJI M400 TB100C battery for tethered operations.

SAFE-T 2 STATION

Elistair advanced tethered station, compatible with 6S, 8S, 12S drones, used by security forces worldwide.

Technical Data

DJI M400 AIR MODULE

Total weight	879 g (1,9 lbs)
Dimensions	l 169 x w 126 x h 70 mm (6,6 x 5 x 2,8 ")
Safety battery	Original TB100 (C)
Operational Temperatures	-20 to 45° C (-4° to 120° F)

SAFE-T 2 TETHERED DRONE STATION

Max continuous power	2200 W
Max peak power	2500 W
Max flight height	100 m (330 ft)
Compatibility with Elistair station	Safe-T 2.3 - 20.5 g/m
